

# L'UNIVERS COLLECTION

"L'Univers Collection" is an impressive collection of engineered quartz, created to honor the majestic beauty and mystery of the vast universe. Each piece in this collection is not just a work of contemporary art but also a subtle interplay of astronomy, inviting users on an endless journey to explore the wonders of space beyond our planet.

Inspired by twinkling stars, distant planets, and intriguing cosmic phenomena like meteor showers and the Milky Way, "L'Univers Collection" replicates these through unique quartz patterns. Utilizing advanced digital printing technology, each engineered quartz piece offers a unique visual experience, where colors and light blend perfectly to create stunning, lively effects.

This collection serves not only as a luxurious interior decor element but also as a continuous source of inspiration for those who adore the beauty of the night sky and wish to bring a part of the universe into their living spaces. From living rooms to offices, from public areas to private spaces, "L'Univers Collection" provides an opportunity for each of us to find a personal connection with the vast cosmos through these sophisticated and meaningful designs.

# L'UNIVERS

## Collection

Through "L'Univers Collection," we invite you to embark on a journey not just to discover the beauty of cosmic elements through the lens of art and design but also to feel a deep connection to the marvels out there, reflected right in your own living space.

## L'UNIVERS COLLECTION

The "Antlia" quartz slab, named after the Antlia constellation, features a predominantly white background interspersed with tones of black and pale gold. The white creates a clean and expansive feel, while the black and gold accents add a touch of luxury and style.

Normal Size: 126 inch x 63 inch

# ANTLIA

VINAQUARTZ®

# ANTLIA

The pattern on this quartz slab is a dynamic and complex blend of black and gold veins. The black veins provide strong, clear lines with a natural quality reminiscent of marble, creating striking contrasts in any interior space.

## L'UNIVERS COLLECTION

The "Auriga" quartz slab—a masterpiece of interior elegance named after the celestial Auriga constellation. This design features a pristine white background gracefully intertwined with deep grey veins, offering a modern, luxurious, and sophisticated aesthetic that adapts seamlessly across various interior design styles.

The "Auriga" quartz slab—a masterpiece of interior elegance named after the celestial Auriga constellation. This design features a pristine white background gracefully intertwined with deep grey veins, offering a modern, luxurious, and sophisticated aesthetic that adapts seamlessly across various interior design styles.

The "Gemini" quartz slab features subtle variations in beige, cream, and light brown tones, providing a natural and elegant appearance. This neutral palette is highly versatile, suitable for a variety of interior design applications.

Normal Size: 126 inch x 63 inch

# GEMINI

VINAQUARTZ®

# GEMINI

Characterized by its gentle, wave-like patterns with light brown and gray veins, the "Gemini" adds depth and intrigue, transforming each slab into a unique piece of art. This collection promises to be a striking addition, bringing sophistication and beauty to any design project.

## L'UNIVERS COLLECTION

The pristine white background of the Sagitta quartz slab creates a striking contrast with its gray and black veins. This contrast not only highlights the patterns more vividly but also imparts a luxurious and modern feel to the surface.

Normal Size: 126 inch x 63 inch

The veins traverse the slab in soft, irregular curves, evoking a sense of natural movement and dynamism. This effect is reminiscent of the flowing patterns found in natural marble, enhancing the natural beauty and uniqueness of each piece.

## L'UNIVERS COLLECTION

Inspired by the Carina constellation, the Carina quartz slab features rich brown veins that contrast beautifully against a bright cream background, adding depth and focal interest to the stone's surface. These veins evoke the natural and vibrant beauty of high-end natural stones, making the slab resemble premium natural materials.

Normal Size: 126 inch x 63 inch

# CARINA

 VINAQUARTZ®

# CARINA

The harmonious combination of the light cream base and brown veins highlights each intricate detail of the patterning while preserving the slab's elegant appearance. This style offers a classic and sophisticated feel, making it a popular choice for designs that aim for luxury and refinement.

## L'UNIVERS COLLECTION

Drawing inspiration from the subtle yet distinct Leo Minor constellation, the Leo Minor quartz slab combines understated elegance with a touch of cosmic wonder. This slab features a delicate pattern of fine, dark veins that sprawl across a soft, pale background, mimicking the sparse but noticeable stars of its namesake constellation.

Normal Size: 126 inch x 63 inch

## LEO MINOR

VINAQUARTZ®

# LEO MINOR

The intricate veining pattern not only reflects the celestial inspiration but also adds sophistication and depth to any space. Ideal for creating a serene yet striking environment, the Leo Minor slab brings a piece of the night sky into your home, making it perfect for those looking to infuse their interiors with a sense of tranquility and expansive beauty.
